TAPE PRODUCTS

Stretch & Seal™

Silicone Sealing Tape

Instructions for Use

Step 1:

Peel away clear cellophane release liner.

Step 2:

Press tape firmly on object to be wrapped, hold in place and begin first by wrapping the tape once completely over itself.

Step 3:

While holding the tape in place, stretch to 2 to 3 times its length and wrap object with a 2/3 overlap. This will ensure a tight seal.

Step 4:

To complete the repair, wrap tape completely over the previous layer and press firmly.

The information presented herein was prepared at BERRY PLASTICS CORPORATION (25 Forge Parkway Franklin, MA 02038) by qualified technical personnel. To Berry Plastics' knowledge it is true and accurate. However, the information and recommendations are furnished for these products with the understanding that the purchaser or user, as the case may be, will independently determine that the product is suitable for the intended use, and that such use complies with all applicable federal, state and local laws and regulations.
